PERSONAL SUMMARY

With over 15 years of experience in video production, I bring a unique blend of creativity, technical skills, and a passion for storytelling. As I transition into software development through a full-stack developer diploma, I have gained strong proficiency in HTML, CSS and JavaScript, alongside a solid foundation in backend development and database management.

My diverse background has equipped me with excellent problem-solving skills, meticulous attention to detail, and the ability to thrive in collaborative environments. I am committed to continuous learning and am eager to apply my skills to contribute to innovative projects. The opportunity to join Companjon as an IT Intern excites me, as it would allow me to work with and learn from experienced engineers while developing and growing as a Kevlar Engineer.

I am particularly enthusiastic about utilising industry-leading technologies to deliver successful client outcomes.

EDUCATION

FULL STACK DEVELOPMENT DIPLOMA

Code Institute, [2024 - PRESENT]

- Comprehensive curriculum covering HTML, CSS, JavaScript, Python, and Django.
- Focused on practical, project-based learning to develop real-world applications in a SAS equivalent environment.

THE COMPLETE JAVASCRIPT COURSE

Jonas Schmedtmann - Udemy, [2023 - PRESENT]

- The modern JavaScript course built to master JavaScript with projects, challenges and theory.

SKILLS

Frontend Development:

- Languages: HTML, CSS, JavaScript
- Frameworks/Libraries: Learning React
- Tools: npm, HomeBrew, Integrate API's

Backend Development:

- Languages: Beginner Python
- Frameworks: Will be learning Django & SQL

User Experience (UX) Design:

- Principles: Usability, Accessibility, Responsive Design

Version Control:

- Systems: Git, GitHub

Soft Skills:

- Communication: Clear and effective in both written and verbal forms
- Team Collaboration: Experienced in working with diverse, cross-functional team. This was shown in winning the first Hackathon I took part in.
- Problem-Solving: Strong analytical and troubleshooting abilities
- Adaptability: Quick learner with a proactive approach to new challenges

PROJECTS

1. **Fairyland Cottage** - Simple and sustainable lifestyle
GitHub - <https://github.com/TerryLoc/Fairyland-Cottage>
Technologies Used - HTML5 and CSS.
2. **Beyond The Mood** - Positive Affirmation and Colour Wheel app
GitHub - <https://github.com/TerryLoc/positive-affirmation-colour-wheel>
Technologies Used - HTML5 , CSS & JavaScript.
3. **The Fork Awakens** - A classic Star Wars Quiz built for a Hackathon
GitHub - https://github.com/Thomas-Tomo/the_fork_awakens
Technologies Used - HTML5 , CSS, JavaScript & Bootstrap.
4. **Island Survival Game** - A text-based adventure game played within the terminal
GitHub - <https://github.com/TerryLoc/island-survival-game>
Technologies Used - Python.

AWARDS

Code Institute Hackathon - Code Wars: The Hackathon Strikes Back [Link](#) (1st place)
This was a group project, over a 5 day period. We created a fully functioning site
Technologies Used - HTML5, CSS, JavaScript, Bootstrap, Git, Github,

WORK EXPERIENCE
